Oussama Khaldi

PROFESSIONAL EXPERIENCE

Atidgo Marseille
AI Engineer Intern → AI R&D Engineer *Dec 2025 – Present*
- Led development of **DUFI**, an AI-powered WhatsApp ordering assistant integrating integrating multilingual LLM orchestration , voice processing, APIs, and backend services.
- Designed and trained machine learning forecasting models for demand prediction using historical sales, weather, and event-based features, improving forecasting accuracy by 20% over baseline models.
- Developed production-ready AI workflows combining optimization algorithms and predictive models for automated inventory and ordering recommendations.
- Worked on deployment, monitoring , and iterative evaluation of AI systems in production environments.

DZDigitalServices Remote
Founder & AI Systems Engineer *Mar 2024 – Jun 2025*
- Built and deployed AI automation systems and LLM-powered workflows for 80+ clients across e-commerce, marketing, and digital operations.
- Developed custom GPT-based assistants, data extraction pipelines, and automation tools integrating APIs and external services.
- Managed end-to-end ML and AI projects from data processing and experimentation to deployment and client delivery.

Sense Conseil Alger
Data Science Intern *May 2025 – Jun 2025*
- Built BI dashboards and analytics pipelines reducing manual reporting workload by 60%.
- Performed customer behavior analysis and developed data-driven optimization recommendations contributing to an 8% increase in conversion rate.

AI & Data Hackathons
Participant & Award Winner *2024 – Present*
- 1st Place: AIM Agentic AI Hackathon (France), Algeria Data Cup, Snypson, AICamp.
- 2nd Place: Yassir AI Hackathon, GDG AI Fest.

EDUCATION

Université Paris Cité Paris
MSc Machine Learning for Data Science (Apprenticeship) – Top-Ranked data Master's in France2026 – 2028

Aix-Marseille Université Marseille
BSc Computer Science & Big Data (Top of Class) *2025 – 2026*

Leland
AI Product Management Bootcamp *Apr 2025 – Jul 2025*

SKILLS
- **Machine Learning**: Deep learning, NLP, time series forecasting, supervised learning, optimization, evaluation pipelines
- **AI Systems**: LLMs, AI agents, prompt engineering, workflow orchestration, inference pipelines, model deployment
- **MLOps & Deployment**: ETL pipelines, monitoring, automation, deployment workflows, production AI systems
- **Programming**: Python, SQL, JavaScript, PHP, R
- **Frameworks**: PyTorch, TensorFlow, Scikit-learn, Pandas
- **Languages**: French (C2), English (C1)

LEADERSHIP & ACTIVITIES
- Partnerships Lead – ESN Marseille
- External Relations Lead – Economic Ingenious Club (Alger)
- Organizer – ICT Africa Summit 2025 and Open Data Algeria 2024
